FURTHER INFORMATION CONTINUED FROM PCT/ISA/ 210

Continuation of Box I.2

Claims Nos.: 12,15,16

The subject matter of claims 12,15 and 16 is defined by reference to the description and drawings which is not allowed under the PCT (see rule 6.2 PCT). The claims do not define any clear and structural features or limitations. Consequently the scope of the claim is not clear (see Article 6 PCT) ad a meaningful search is not possible (see Article 17).

The applicant's attention is drawn to the fact that claims, or parts of claims, relating to inventions in respect of which no international search report has been established need not be the subject of an international preliminary examination (Rule 66.1(e) PCT). The applicant is advised that the EPO policy when acting as an International Preliminary Examining Authority is normally not to carry out a preliminary examination on matter which has not been searched. This is the case irrespective of whether or not the claims are amended following receipt of the search report or during any Chapter II procedure.
